This includes Coconut Milk, Coconut Oil, Coconut Vinegar, Coconut Condensed Milk, Green/Red/Yellow curry, Coconut Butter, Coconut Flour, and Coconut Amino, Coconut Sugar. Our tropical beverages include King Coconut Water, Coco Juice and Mango, Organic Pina colada, Organic Coconut Water with Cinnamon, Organic Coconut with Hibiscus Soursup and Lime, Organic Coconut Water with Passion Fruit, Organic Coconut with Pineapple. At Tradesbarn, we understand the importance of organic, sustainably sourced ingredients. That's why we work closely with our suppliers to ensure that our products are of the highest quality and meet our strict standards for ethical sourcing.

FROM A PALM LINED ISLAND

In Sri Lanka, the mighty but humble coconut enjoys a position of prestige that is interwoven with the culture and traditions of its people. Known as the 'tree of life', coconut palms are found across the island, from the coasts to the hilly interiors. We are taught that every part of this sacred tree offers value, and nothing goes to waste, that it is 'kapruka' - all-giving. Our manufacturers, produces 100% natural, organic (JAS, USDA, NOP, EU) and non-GMO coconut products for over 35 years, and we at Tradesbarn LLC take this ethos of nourishment and sustainability to heart in everything we do.

A TREAT FOR BODY AND SOUL

The Sri Lankan coconut is the best in the world in terms of the meat's naturally occurring fat content and its bright-white coloring. In fact, it has been shown to promote weight loss, improve digestion, and help prevent heart disease, cancer, diabetes, arthritis, and Alzheimer's disease. It also prevents premature aging of the skin, leads to luscious locks, and has strong anti-microbial qualities. It fuels the body with digestible proteins, healthy fats, and filling fiber. Thus, it is an integral part of the island's fabric, a staple that is consumed in some form at every meal.

ALWAYS AT THE FOREFRONT

As pioneers and leaders in producing organic coconut products, our manufacturers combine traditional expertise with state-of-the-art equipment to produce a broad and diverse range of coconut products. Their modern production facilities, located in the heart of Sri Lanka's coconut triangle, are certified GMP, HACCP, BRC AA, ISO 22000, Kosher, and Halal. At Tradesbarn LLC, we empower our manufactures to support small-scale farmer partners to be sustainable and profitable while appreciating and developing their products.

ENRICHING COMMUNITIES

At Tradesbarn LLC we focused on social enrichment and community programs to support the underprivileged in the communities we function in. Therefore, our selected manufacturers are certified as being Fair Trade and SMETA compliant and employ over 500 employees directly while empowering over 5,000 people indirectly. Further, we have a long-established zero-tolerance policy on child and animal labor and champion gender equality. When you invest in **Islands Harvest products**, not only are you investing in your consumers' health and your business, but also the humble Sri Lankan coconut farmer and their communities, thereby adding to the prosperity of an island and its people.
